PROFILE

Biomedical engineer (UCL MSc, Medical Robotics and AI) bridging clinical, regulatory and commercial work, from clinical data workflows and EU MDR to B2B and B2C customers. Seeking a medtech product or sales role.

EDUCATION

Master of Science, UCL **Sep 2025 – Sep 2026**
Medical Robotics and Artificial Intelligence · Merit (67.5%)
Dissertation: Machine learning analysis of prefrontal fNIRS data · Distinction (72%)

Bachelor of Engineering, City St George's, University of London **Sep 2022 – Jun 2025**
Biomedical Engineering · First Class Honours

KEY COMPETENCIES

Regulatory & Quality — EU MDR 2017/745, CE marking, risk classification, post-market surveillance
Commercial — B2B order-to-delivery, account support, market access analysis, go-to-market materials
Technical — Python, SQLite, Excel VBA, Power Automate
Languages — English (native), Mandarin (fluent), Cantonese (fluent)

PROFESSIONAL EXPERIENCE

Zortex (ZortexHQ) — Product & Commercial **Jul 2026 – Oct 2026**
AI start-up building a desktop assistant that links everyday apps and personal data to AI · Hong Kong
- Built and shipped the zortex.me waitlist end to end, from sign-up flow to admin dashboard to measure user demand.
- Produced the company pitch deck, translating technical architecture into commercial positioning.
- Ran cold outreach to prospective users and investors, including angel investors and insurance firms, to test product-market fit for a B2B sales motion.

KOLN 3D — Summer Intern **Jun 2024 – Aug 2024**
Medical 3D-printing manufacturer of patient-specific metal implants · Hong Kong
- Developed a REDCap-based automated post-operative follow-up workflow with clinical teams, applying orthopaedic outcome scoring to assess implant performance from patient and surgeon feedback.
- Built an automated production Gantt system in Excel VBA and Power Automate, giving end-to-end visibility of R&D-to-manufacturing timelines.

Golden Cedar Ltd — Sales Intern **Jun 2023 – Aug 2023**
B2B textile supplier to international apparel brands · Hong Kong
- Supported order-to-delivery operations for high-volume B2B textile orders: product selection, quality control, invoicing and logistics.
- Assisted in fulfilling major supply contracts for international brands including Carhartt WIP and Chef Works Inc.

Audrey Market — Marketing Intern **Jun 2022 – Aug 2022**
Retail (B2C) · Hong Kong
- Drove a 200% sales uplift through product bundling and re-pricing during a store-closure clearance.
- Handled B2C orders end to end, from customer enquiry and order processing to fulfilment, and followed up after delivery to gather feedback.
- Maintained the customer CRM, keeping purchase histories and follow-ups up to date to support repeat business.
- Planned Meta advertising campaigns and created AI-assisted visual assets to reach new customers.

PROJECTS

Medical Device Regulation & Compliance **Jan 2026 – May 2026**
Medical Robotics and Devices, UCL
- Applied EU MDR 2017/745 requirements to device commercialisation scenarios: CE marking, risk classification, intended-use definition, clinical claims, technical documentation and post-market surveillance.
- Framed regulatory requirements in commercial terms, linking device safety, clinical evidence and quality assurance to market access and customer adoption.

OsteoTrack: Bone-Healing Monitoring Device **Oct 2025 – Apr 2026**
Medical Device Entrepreneurship, UCL · Group project · Role: Communications & Fundraising Officer
- Created the logo, brand identity and launch page for our group's non-invasive, vibration-based fracture-healing monitor, working with the Chief Designer and Market Researcher.
- Built the commercial and fundraising case around the NHS workflow (patient as user, NHS as economic buyer), covering IP, funding routes and realistic next steps: prototype, validation and pilots.
